Activity Report 2021-22 PCB DESIGN COURSE

Total No. of Participants: 35

Duration: 30Hours

Syllabus:

1-Defining the main stages of PCB design from a simple idea to physical reality by having a PCB board ready for production

2-Familiarize the students with EDA user interface and design environment
Defining the types of libraries and the function of each one Getting started with a new project .

3-Understanding different patterns of differed components and their corresponding package styles and footprints.

4-Description of IPC (industry standards) of every aspect of PCB design.

5- Developing a comprehensive design strategy to produce a state of the art schematics and PCB layouts

Outcome: Upon completion of the PCB design course, the students should be able to carry out any PCB design necessary for their graduation projects.

Students will also be able to create schematics from blue-prints, they will also be able to perform simple simulations The course is intended to give the students the necessary knowledge and of PCB design steps, starting from a simple schematics, through creating new components, and all the way to down a final PCB layout ready for population The course includes single-sided printed circuit board design, emphasizing the drawings, standards, and the processes required to layout printed circuit board and manufacturing documentation Recognize the technologies used in electronic industry through the practical experience gained in the course .

Subject-About permission for the student visit to your centre.

Respected sir,

With reference to the above mentioned subject our B.Sc Physics, Electronics, Maths and Statistics students are interested to visit your centre at Shivaji University, Kolhapur for this purpose we need to seek your permission for visit your centre. There would be a total 50 students from our college.

The visit is aimed to enhancing their practical knowledge of Nanoscience and technology. We intered to take round of entire centre & show the tasks handled in differenrnt section. I anticipate a positive response from your end. Please sanction the permission and obilige.

Thanking you,
